Charles A. Boyer, Inc.*

Being a part of the Manistee Area Chamber of Commerce has helped me grow professionally in Manistee and it's fun!

Chamber Membership has so many rewards. A couple that are personally rewarding to me are the networking opportunities and business exposure through the website, newsletter and Business After Hour events. These opportunities expose our business to potential clients that are current residents and future investors in the community. The exposure lets everyone know why I chose Manistee to live and work. Manistee is "The Place to Be"!!!

We Mean Business!

Representation - the Chamber represents the interests of businesses at the city, county, state and federal level. We are the voice for business in the county and we believe that generally speaking what's good for business is good for the county.

Access - Business people need access - to new customers, to other businesses, to government and to the people who know who's who and what's what and how to get things done in Manistee County. The Chamber is the most direct access for business people.

Information - the Chamber fields thousands of calls each year from members, residents and visitors. What's the name of the new candy store? Where do I vote? What's going on this weekend? What's the median per capita income in Manistee? In all cases, the Chamber will answer the question or find someone who can.

Solving old problems in new ways - When someone says "There's no way it'll work" the Chamber says "We can make it work". When we hear "We don't have the expertise", the Chamber assembles the expertise we need. To those who say "I can't" the Chamber says "We can"!

Economic stimulation - Shop Locally campaigns, regional collaborations, legislative forums, round table discussions and community events are just some of the ways the Chamber stimulates our local economy.
